Hylton, attached is the final approved copy of the updated Human Health Risk Assessment for IDNR files.

I am expecting to have the revised Focused Feasibility Studies for the Buildings and the South Pond Area by the end of the month. I called you this morning and left a message to discuss these. When you get a chance, please call me back. As soon as I get them, I will forward them to you to review. Please let me know if you have any questions. Thanks!
